Re: Santa Clara River

Dear Connely:

We received your extension request regarding the requirements in our letter of November 14, 2007. The requested extensions as detailed in your letter are hereby granted with the following provisions below:

Your evaluation of system losses will be expected in this office by January 31, 2008. Please include documentation and the flume readings used in the evaluation.

We encourage you to reach an acceptable site access agreement for installation of the real time monitoring in a timely fashion with the WCWCD. Daily averaged data is acceptable for reporting once the real time system is operational.

Semi-annual data analysis is acceptable; the division requests this be done in the spring and fall each year, prior to the start and just after the end of the normal irrigation season. However the flow data must be submitted on a monthly basis. The flume readings can be entered directly to the division website at the end of each month. Provisions and accommodations for doing this can be handled with my staff.

We urge you to complete the flume repairs as soon as possible so the real time readings are in conjunction with accurate measurements. Calibration of flumes completed by the suggested deadline of June 30, 2008 is acceptable, but calibration may influence readings taken prior to that time. Data reported prior to the calibration may need to be adjusted accordingly.

For completion of the diversion and re-diversion gates, the deadline of November 30, 2009 is permissible. Please provide quarterly progress reports to keep the division apprised of progress on all matters discussed in this letter, until these items are completed in their entirety.

Subject: **Santa Clara Power Company Headgates and Measuring Devices**

If you have any questions regarding this letter, please contact me by phone at (801) 538-7380 or by email at LeeSim@utah.gov or Mike Silva, Distribution Engineer for the Santa Clara River, by phone at (801) 538-7430 or by Email at Mikesilva@utah.gov. Mike can help you with arrangements for entering the monthly readings to the Division Website.

Sincerely,

A handwritten signature in black ink, appearing to read "Lee H. Sim". The signature is stylized with a large, looping "L" and "S".
